Established in 2008

From Principal's Desk

Since antiquity, education has been understood as the cultivation of the whole human being rather than the mere transfer of knowledge. Aristotle described it as "the creation of a sound mind in a sound body," while the Indian tradition conveys the same through shiksha (discipline) and vidya (knowledge). At Jibreel International School, we see this harmony reflected most profoundly in the Qur'anic paradigm, beginning with the first revelation: "Read in the name of your Lord" (Surah al-'Alaq, 96:1). This guiding principle elevates learning to a sacred trust, joining intellectual pursuit with moral and spiritual consciousness.

Founded in 2008 as the first English-medium school in Bengal with spiritual learning, Jibreel International School has grown into a vibrant institution with five campuses across Kolkata, inspiring young minds with both faith and technology. Over the past seventeen years, our perseverance and dedication have established us as a school of repute—anchored in values, enriched by modern pedagogy, and recognized for both academic excellence and holistic student development.

At the heart of our vision lie four major focus areas that shape our mission. We strive for excellence in academics, guiding every child with a rigorous and modern curriculum that prepares them for higher education and professional success. We emphasize the blending of spirituality and morality with knowledge, nurturing the inner self alongside intellectual growth through our Scripture Studies, Moral Education curriculum, and the Hifz Programme, which continues to achieve remarkable results. We give importance to beyond-classroom activities, offering opportunities through Science, Mathematics, Literature, cultural events, and enrichment programmes that allow students to discover their talents and passions. Finally, we attach great value to sports and fitness, providing structured coaching in cricket, football, roller skating, and badminton, so that our students grow into disciplined, resilient, and healthy individuals.

Aligned with the National Education Policy 2020 and the National Curriculum Framework 2023, our pedagogy is increasingly activity-based and experiential, fostering hands-on learning and critical thinking at every stage. With nine successful CISCE batches to date, our alumni are now pursuing higher studies in esteemed institutions across India and abroad, carrying forward the values and skills instilled in them at Jibreel.

Education today is in transition, moving from traditional classrooms to blended and technology-driven models. It is my privilege, along with my dedicated team, to guide our students through this change. At Jibreel International School, we see this not as a challenge but as an opportunity—to cultivate adaptable, innovative learners who remain deeply grounded in ethics, faith, and spirituality.

None of this would have been possible without the unwavering trust and prayers of our parents. Education, after all, is a partnership—school and home being two sides of the same coin. We are profoundly grateful for your support and seek your continued collaboration in shaping a generation that will shine as the gems of humanity. With the blessings of the Almighty, we reaffirm our commitment to nurturing leaders of tomorrow—students who embody wisdom, compassion, resilience, and vision.

Abdul Basit Ismail
Principal

An institute of excellence for new-age learning

A Note From The Chief Administrator

Alhamdulillah! With the grace of Allah the Almighty, Jibreel International School has now completed seventeen glorious years of its educational journey. This journey, though filled with challenges, has always been brightened with perseverance, dedication, and divine blessings. Every step has been a reminder of the Qur'anic truth: "And say, 'My Lord, increase me in knowledge.'" (Surah Ta-Ha 20:114). It is this prayer that has carried us forward, bringing honour, pride, and progress to our community.

From the very beginning, when the foundation stone was laid with the heartfelt duas and blessed hands of Maulana Syed Rabey Hasani Nadvi (RA), our institution has steadily flourished. What started as a dream has now become a trusted reality—recognized and respected not only in Kolkata but across the nation and beyond.

Over these years, we have built an educational environment that combines tradition with modernity, faith with science, and values with vision. Our rigorous academic curriculum has consistently produced outstanding results. At the same time, a wide spectrum of co-curricular and extracurricular activities has nurtured creativity, discipline, and teamwork, winning appreciation from parents, well-wishers, and the wider academic fraternity.

Our mission remains firm: to provide every child entrusted to us with a holistic education—one that enlightens the mind, purifies the heart, and builds character strong enough to lead the 21st century. Inspired by prophetic guidance that "the best among you are those who learn the Qur'an and teach it," our scholars and educators have developed a curriculum that balances Moral Education, Scripture Studies, and modern sciences.

In our Department of Theology, innovation meets tradition. By integrating technology-driven teaching strategies, we have adopted blended learning methods that make religious studies engaging and effective. The Hifz Programme—offered both online and offline—has consistently delivered excellent results. Year after year, our students not only commit the Noble Qur'an to memory but also embody its spirit, values, and light in their lives.

We believe that the Qur'an is not just to be memorized, but to be understood, reflected upon, and applied. Hence, at Jibreel International School, we give the highest priority to Qur'anic education, nurturing in our students a lifelong bond with faith and spirituality alongside excellence in worldly sciences.

None of this would have been possible without the tireless support, trust, and duas of our parents and well-wishers. As we look to the future, we humbly seek your continued encouragement and prayers, so that together we may guide our children toward a future that is bright with knowledge, meaningful in service, and pleasing to Allah the Almighty.

Who We Are

Founded in 2008, Jibreel International School (JIS) is Eastern India's First English Medium School to integrate modern education with spiritual learning. With five thriving units across Kolkata, JIS has grown into a pioneering institution that blends academic rigour, moral values and cultural understanding.

At JIS, we believe education should prepare students not only to excel in examinations but also to think critically, act responsibly, and adapt to a rapidly changing world. Our classrooms are spaces where curiosity is encouraged, creativity is nurtured, and values are lived through action.

■ Curriculum

JIS follows the ICSE curriculum, aligned with the standards of CISCE (New Delhi). The programme is comprehensive, covering all major subjects in General Studies — Languages, Mathematics, Science, and Social Sciences — ensuring that students receive a strong academic foundation.

In addition, the school offers Theology Studies for Muslim students, which include Moral Education, Arabic Language and Scripture Lessons. These classes aim to strengthen character, nurture faith, and connect spiritual learning with daily life, complementing the modern curriculum with timeless guidance.

■ Learning Environment

Our classrooms are comfortable and up-to-date, fostering focus and collaboration. Through partnerships with sports clubs, JIS enables students to participate, compete, and excel across diverse athletic pursuits. Beyond academics, our co-curricular programmes in arts, sports, and community service nurture leadership and social responsibility in real-world contexts.

■ Academic Continuity

JIS is in the process of obtaining affiliation from a recognised National Board, preferably CISCE (New Delhi). Meanwhile, we work closely with our sister organisation to ensure that students preparing for board examinations receive structured guidance and academic support without disruption.

Our Vision and Mission

■ Vision

To establish Jibreel International School as a centre of excellence where modern education and spiritual values meet — nurturing generations of learners who are globally competent, ethically grounded, and socially responsible.

■ Mission

To provide a holistic education that balances academic achievement with personal growth. We aim to:

- Deliver a curriculum that develops critical thinking, creativity, and problem-solving.
- Instil discipline, empathy, and resilience through everyday school experiences.
- Encourage students to respect diversity and contribute positively to their community.
- Integrate spiritual learning in a way that strengthens character and guides purposeful living.

Where Knowledge Meets Values

Special Features

Five-Language Formula: A unique curriculum offering English as the medium of instruction, Arabic as a special language, along with Hindi, Bengali, and Urdu at different stages as compulsory second and third languages.

- **Expert Faculty:** A team of dedicated and well-trained teachers, continuously enriched through regular workshops, seminars, and webinars to ensure effective planning and innovative teaching practices.
- **Holistic Co-Curriculars:** Sports, oratory workshops, quizzes, elocution, and physical fitness activities form an integral part of student development beyond academics.
- **Montessori Learning Tools:** Use of Montessori apparatus in nursery classes to refine young learners' senses and enhance early learning.
- **Multimedia-Aided Learning:** Engaging audio-visual sessions that bring poems and stories to life, capturing children's interest and aiding better comprehension.
- **Technology Integration:** Smart use of digital tools at all levels to nurture 21st-century learning skills and future-ready students.
- **Skill Enhancement Programmes:** Age-appropriate exposure to Abacus, Vedic Maths, and Coding to strengthen subject competency and build confidence.
- **Future-Ready Learning:** Provision of a comprehensive and engaging online education mode to ensure continuity during lockdowns or unforeseen disruptions.

Facilities

At Jibree International School, we provide facilities that ensure a safe, comfortable, and inspiring learning environment for every child. Our infrastructure is thoughtfully designed to support both academic excellence and overall development.

- **Well-equipped Classrooms:** Spacious and comfortable classrooms, with air-conditioning during summer months, to ensure a focused and pleasant learning experience.
- **Balanced Student-Teacher Ratio:** Individual care and attention to meet the learning needs of every student.
- **Modern IT & Computer Labs:** Technology-enabled learning that prepares students for the digital age.
- **Sports & Physical Fitness:** Regular training and access to both indoor and outdoor games, helping students stay fit and active.
- **Safe Transport Services:** School transport available in both AC and Non-AC options for convenience and safety.
- **Central Location:** Conveniently situated in the heart of the city, making access easy for families.
- **Recreational Play Area:** A designated space for assemblies, physical fitness sessions, and student activities, providing opportunities for healthy participation, refreshment, and enjoyable group play.
- **Safe Drinking Water:** Provision of clean, filtered water across the campus.
- **Co-curricular Activities:** A wide range of clubs, activities, and opportunities that go beyond academics.
- **Annual Competitions:** Events that help students showcase their skills, build confidence, and nurture their unique talents.

Transport Services Available

Future Plan

With steadfast commitment, we are moving towards the development of a state-of-the-art campus that will stand as a benchmark of excellence in the city. This upcoming campus is envisioned to provide world-class facilities and holistic learning opportunities, including:

- **Modern Classrooms:** Spacious, well-ventilated, and technology-enabled classrooms designed for effective learning.
- **Advanced Laboratories:** Fully equipped science and computer labs to encourage hands-on experimentation and innovation.
- **Smart Learning Spaces:** Audio-visual enabled "Smart Classes" to make lessons interactive and engaging.
- **Digital Library:** A resource-rich, digitised library to promote research-oriented and independent learning.
- **Soft Skills Training:** Dedicated sessions on debate, group discussion, and creative writing to shape confident and articulate individuals.
- **Career Counselling:** Expert guidance for senior students to help them make informed and future-ready career choices.
- **Student Well-being:** Professional child psychologists offering counselling, mentorship, and assessments for holistic development.
