JIBREEL[®] INTERNATIONAL SCHOOL KOLKATA

INSPIRING YOUNG MINDS WITH FAITH AND TECHNOLOGY

Website: www.jibreelinternationalschool.com

Email: jibreelinternationalschool@gmail.com

From Principal's Desk

The word 'education' can best be understood in the Indian context from two of the words derived from Sanskrit, 'shiksha' and 'vidya'. While the former means 'to discipline' the latter means 'to know'. Put together, this shows that disciplining the mind and imparting knowledge were the foremost considerations in India and conforms to Aristotle's universal definition of education - "Education is the creation of a sound mind in a sound body." This understanding of education takes us close to the very first revelation of the Holy Quran- "Read in the name of your Lord."

We at Jibreel International School have adopted this revelation as our motto, which aims at transforming the children into good human beings committed to work for the creation of human communities of love, fellowship, freedom, justice and harmony. Students are to be moulded only by making them experience the significance of these values in the school itself.

Education, in the broadest sense of the term, is meant to aid the human being in his/her pursuit of wholeness. Wholeness implies the harmonious development of all the potentialities the Almighty has given to an individual. True education is the harmonious development of the physical, mental, spiritual and social faculties, the four dimensions of life, for a life of dedicated service to humanity.

At Jibreel International School we promise you quality modern education amidst an atmosphere most conducive to building on values and ethics. We welcome your ward in our school and assure you that we will try to give him/her the best education encompassing the worldly and the spiritual aspects of life. The educational system, we understand, is undergoing a transition from completely brick-and-mortar to a blended learning approach with the collaboration of technology into the system, and it is my privilege to facilitate this change. Technology is the future and we must prepare our students for the future.

Over the last couple of years the school's resource team has made significant moves towards guided incorporation of technology at all levels and that finds reflection in the introduction of School App (ERP-cum-LMS) and Oxford Advantage (LMS) making our system and students ready for the 21st Century.

The school has been consistent in striving to shape individuals with potentials who can contribute to the society in making a better future for India and the world. In this direction, the school has seen six batches of its students successfully pass out their CISCE board exams and are currently pursuing higher studies in different colleges and universities across the country.

Having said this, I must say that if education is a coin, school with its system is just one side of it; the other side being home and the parents. We are thankful that our parents have come forward and co-operated with us well in accomplishing our goals thus far and we are hopeful of an extended support in the future. With the blessings of the Supreme Being, we pledge to give our nation a perennial supply of geniuses and gift the world with gems of the human race.

I feel pleased to inform that the school will soon come up with its dream campus. InShaAllah!

Abdul Basit Ismail
Principal

A Note From The Chief Administrator

Jibreel International School has successfully completed fourteen years of educational journey. The journey hasn't been easy, but we have persevered. Ever since the foundation-stone was laid by the sincere prayer and generous hands of Maulana Syed Rabey Hasani Nadvi, the school has earned growing popularity in and around the city. Its up-to-date educational environment and standard academic syllabus have made it a school of repute. Our result oriented academics and series of activities have found much appreciation among our parents and well-wishers. We constantly strive to give our students the best and all-round enrichment to gift our society with leaders of 21st century.

The committed efforts of the scholars have enabled us to design a curriculum for Moral Education and Scripture Studies that is yielding excellent results. The department of theology has successfully upgraded to technology driven teaching strategies when it was most needed and now we are effectively equipped to float the blended learning approach. The school has provision for hifz classes both in online and offline modes and the department has been giving successful results year after year.

We are grateful for the overwhelming support of the parents and are hopeful of their prayers for the success and bright future of the school.

Dr N Sabah Ismail Nadvi
Chief Administrator

A Note From The Bursar

Enriching and enlightening the students with spiritual knowledge and modern scientific education has now become the benchmark of Jibreel International School. In the process, whatsoever the matter may be, we hardly compromise with the quality and standard of education. From successful up-gradation to online mode of education during the lockdown to being prepared for blended learning approach post the pandemic, one thing that the school has never compromised with is the quality and standard of education that the school is known to have. The entire system, if observed closely, can tell you the complete story. The up-to-date system and the dream campus that we aim to come up with on our newly procured plot of land will help us achieve our goal.

Humbled by the appreciation of our parents for the school's initiative to provide our parents with relief measures during the pandemic, we continued our extended support throughout the lockdown phase. We are thankful to our far-sighted and wise parents for understanding and cooperating with us in running the system smoothly and systematically. We appreciate the co-operation shown in the past and we are hopeful of a healthier relationship in the future.

Captain Imran Ahmed
Bursar

About the School

Given below is the brief summary of Jibreel International School

What is JIS?

JIBREEL INTERNATIONAL SCHOOL is an English Medium School. Besides the general national level syllabus and curriculum consisting of General Studies subjects of optimum standard, Moral Education and Scripture Studies also form a part for Muslim students.

Our Syllabus

The syllabus and curriculum of the school are chiefly based on the standards set and prescribed by CISCE (New Delhi).

Affiliation

The school is in the process of getting affiliation from a recognised National Board, preferably CISCE (New Delhi). The school is currently following the ICSE Curriculum.

Infrastructure

We strive to possibly provide the best of facilities to our children to enhance their skills and learning processes to the optimum level with the aid of modern technology.

Values

Our values are the source of our strength. They provide the framework within which we carry out our vision. Our values help develop our educational culture and enable our students become productive and integrated with the society in a manner that blends change with continuity and morale with academics.

Culture

We believe that children can be best educated when they are taught with examples of moral values and standards. Tolerance and correct understanding of one's own religion and that of others is crucial towards building a harmonious society since cultural influence is an indispensable part of human nature.

Mission

Our mission is to create, pro-actively produce and distribute knowledge and thinking in a manner that is both contemporaneous and mindful of ethics and values.

Vision

The vision of JIS is to become a center of excellence in the field of modern education. We endeavour to prepare our future generations who are fully equipped with modern and competent knowledge coloured with the hues of their religion, culture and morals, so that they always strive to serve their nation and community with honest dedication and prove themselves to be the best creation of the Almighty.

Special Features

- The curriculum works on a five-language formula with English as the medium of instruction and Arabic as a special language. The other three include Hindi, Bengali and Urdu taken as compulsory second and third language at different stages.
- Dedicated and well-trained teachers for academic subjects supported by regular faculty training workshops, seminars and webinars to keep them updated so that they can plan better and execute efficiently.
- Sports, oratory workshops, quiz, elocution, self-defense, martial arts etc. form an integral part of co-curricular activities.
- Use of Montessori apparatus for nursery class to help students develop and refine their senses so that they learn better.
- Provision for Audio and Video sessions for children to help them learn poems and stories with the help of multimedia.
- Technology integration at all levels to foster 21st century learning skills among students at all levels.
- Level appropriate exposure to abacus, Vedic maths and coding programmes to boost subject competency and confidence among students.
- Provision for a comprehensive and engaging online mode of education amidst lockdown or other uncertainties.

Facilities

- Well-equipped classrooms to facilitate students with learning comfort and concentration (AC during summer days).
- Appropriate student-teacher ratio, to provide individual care and attention to students.
- Modern information and computer facilities for children.
- Regular physical fitness training for children.
- Transport facility for children, if required.
- Conveniently located in the central part of the city.
- Play area for recreational purpose.
- Provision for filtered water.
- Provision for indoor and outdoor games.
- Provision for co-curricular activities.
- Annual competitions to develop individual personality and talent.

Future Plan

Jibreel International School has acquired the land and also laid the foundation upon which it is soon going to build a benchmark campus within the city with the following features:

- Spacious and well maintained classrooms with modern amenities.
- Well-equipped science and computer laboratories.
- Provision for Audio-Visual classes (Smart Class).
- Well-stocked library with digitised functioning to facilitate research-based learning among students.
- Career counselling sessions for senior students to help them make informed and better career choices.
- Soft Skill classes for students including, debate, group discussion, creative writing skills to enhance the overall personality and to instill the sense of confidence among them.
- Child psychologists for counselling and assessment of the children.
