From Principal's Desk

The word 'education' can best be understood in the Indian context from two of the words derived from Sanskrit, 'shiksha' and 'vidya'. While the former means 'to discipline' the latter means 'to know'. Put together, this shows that disciplining the mind and imparting knowledge were the foremost considerations in India and conforms to Aristotle's universal definition of education - "Education is the creation of a sound mind in a sound body." This understanding of education takes us close to the very first revelation of the Holy Quran- "Read in the name of your Lord."

We at Jibreel International School have adopted this revelation as our motto, which aims at transforming the children into good human beings committed to work for the creation of human communities of love, fellowship, freedom, justice and harmony. Students are to be moulded only by making them experience the significance of these values in the school itself.

Education, in the broadest sense of the term, is meant to aid the human being in his/her pursuit of wholeness. Wholeness implies the harmonious development of all the potentialities the Almighty has given to an individual. True education is the harmonious development of the physical, mental, spiritual and social faculties, the four dimensions of life, for a life of dedicated service to humanity.

At Jibreel International School we promise you quality modern education amidst an atmosphere most conducive to building on values and ethics. We welcome your ward in our school and assure you that we will try to give him/her the best education encompassing the worldly and the spiritual aspects of life. The educational system, we understand, is undergoing a transition from completely brick-and-mortar to a blended learning approach with the collaboration of technology into the system, and it is my privilege to facilitate this change. Technology is the future, and we must prepare our students for the future.

In recent years, our school's resource team has taken substantial strides in aligning with the recommended principles outlined in the National Education Policy (NEP 2020). With the introduction of the National Curriculum Framework (NCF) for the Foundational Stage in 2022, we have placed a strong emphasis on implementing activity-based teaching methodologies. Our approach involves providing students with hands-on experiences through a progressive series of level-appropriate activities, fostering experiential learning. Furthermore, the school has been diligently arranging a diverse range of co-curricular activities, both indoor and outdoor, to afford our students the chance to cultivate their talents and flourish through a well-rounded educational journey.

The school has been consistent in striving to shape individuals with potentials who can contribute to the society in making a better future for India and the world. In this direction, the school has seen seven batches of its students successfully pass out their CISCE board exams and are currently pursuing higher studies in different colleges and universities across the country and abroad.

Having said this, I must say that if education is a coin, school with its system is just one side of it: the other side being home and the parents. We are thankful that our parents have come forward and co-operated with us well in accomplishing our goals thus far and we are hopeful of an extended support in the future. With the blessings of the Supreme Being, we pledge to give our nation a perennial supply of geniuses and gift the world with gems of the human race.

Abdul Basit Ismail
Principal

A Note From The Chief Administrator

Jibreel International School has successfully completed fourteen years of educational journey. The journey hasn't been easy, but we have persevered. Ever since the foundation-stone was laid by the sincere prayer and generous hands of Maulana Syed Rabey Hasani Nadvi (ra), the school has earned growing popularity in and around the city. Its up-to-date educational environment and standard academic syllabus have made it a school of repute. Our result oriented academics and series of activities have found much appreciation among our parents and well-wishers. We constantly strive to give our students the best and all-round enrichment to gift our society with leaders of 21st century.

The committed efforts of the scholars have enabled us to design a curriculum for Moral Education and Scripture Studies that is yielding excellent results. The department of theology has successfully upgraded to technology driven teaching strategies when it was most needed and now we are effectively equipped to float the blended learning approach. The school has provision for hifz classes both in online and offline modes and the department has been giving successful results year after year. At Jibreel International School, we hold the memorization of the Quran, along with its understanding, in high regard. We embrace the opportunity to impart this noble knowledge to our students, fostering a deep sense of spirituality and faith.

We are grateful for the overwhelming support of the parents and are hopeful of their prayers for the success and bright future of the school.

Dr N Sabah Ismail Nadvi
Chief Administrator

A Note From The Bursar

Enriching and enlightening the students with spiritual knowledge and modern scientific education has now become the benchmark of Jibreel International School. In the process, whatsoever the matter may be, we hardly compromise with the quality and standard of education. From successful up-gradation to online mode of education during the lockdown to being prepared for blended learning approach post the pandemic, one thing that the school has never compromised with is the quality and standard of education that the school is known to have. The entire system, if observed closely, can tell you the complete story. The up-to-date system and the dream campus that we aim to come up with on our newly procured plot of land will help us achieve our goal.

We are thankful to our far-sighted and wise parents for understanding and cooperating with us in running the system smoothly and systematically. We appreciate the co-operation shown in the past and we are hopeful of a healthier relationship in the future.

Captain Imran Ahmed
Bursar

About The School

Jibreel International School (JIS) stands as a distinguished English Medium School, committed to nurturing holistic development in students through a comprehensive curriculum that blends academic rigor, moral education, and cultural understanding. At JIS, we embrace modernity while upholding ethical values, equipping students with the tools they need to excel academically and ethically.

Our Approach

- **Syllabus and Curriculum:** Aligned with the standards set by CISCE (New Delhi), JIS offers a robust syllabus that encompasses General Studies subjects of the highest quality. Our curriculum extends beyond academics to include Moral Education and Scripture Studies for Muslim students.
- **Infrastructure:** JIS is dedicated to creating an environment that supports optimal learning. Our modern facilities and advanced technology empower students to reach their fullest potential.

Core Values

- **Ethics and Morality:** Our values serve as the cornerstone of our institution. They shape our educational culture and guide students in becoming not only knowledgeable individuals but also responsible and morally grounded members of the society.
- **Cultural Understanding:** We believe in educating students through the lens of moral examples and values. Our emphasis on tolerance, respect, and understanding of different religions and cultures fosters a harmonious and inclusive community.

Mission and Vision

- **Mission:** Our mission is to create, pro-actively produce and distribute knowledge and thinking in a manner that is both contemporaneous and mindful of ethics and values.
- **Vision:** Our vision is to establish JIS as a beacon of modern education excellence. We aim to cultivate generations of individuals armed with a comprehensive blend of contemporary knowledge and rich cultural values. Our graduates will serve their nation and community with dedication and integrity, exemplifying the finest attributes of human potential.

At Jibreel International School, education transcends textbooks. We craft an educational journey that enlightens the mind, enriches the spirit, and empowers the future. Join us in shaping responsible leaders who embody the wisdom of the past and the promise of the future.

Special Features

- The curriculum works on a five-language formula with English as the medium of instruction and Arabic as a special language. The other three include Hindi, Bengali and Urdu taken as compulsory second and third language at different stages.
- Dedicated and well-trained teachers for academic subjects supported by regular faculty training workshops, seminars and webinars to keep them updated so that they can plan better and execute efficiently.
- Sports, oratory workshops, quiz, elocution, physical fitness activities etc. form an integral part of co-curricular activities.
- Use of Montessori apparatus for nursery class to help students develop and refine their senses so that they learn better.
- Multimedia-based Audio and Video sessions designed to captivate children's interest, aiding them in absorbing poems and stories more effectively.
- Technology integration at all levels to foster 21st century learning skills among students at all levels.
- Level appropriate exposure to abacus, Vedic maths and coding programmes to boost subject competency and confidence among students.
- Provision for a comprehensive and engaging online mode of education amidst lockdown or other uncertainties.

Facilities

- Well-equipped classrooms to facilitate students with learning comfort and concentration (AC during summer days).
- Appropriate student-teacher ratio, to provide individual care and attention to students.
- Modern information and computer facilities for children.
- Regular physical fitness training for children.
- Transport Services Available for children (Both AC and Non-AC).
- Conveniently located in the central part of the city.
- Play area for recreational purpose.
- Provision for filtered water.
- Provision for indoor and outdoor games.
- Provision for co-curricular activities.
- Annual competitions to develop individual personality and talent.

Future Plan

With unwavering dedication, we have embarked on a remarkable journey towards the establishment of a pioneering campus that will serve as a benchmark within the city. As we set our sights on the future, we are excited to share the remarkable features that this upcoming campus will encompass:

- Spacious and modern classrooms with advanced amenities.
- Well-equipped science and computer laboratories.
- Provision for Audio-Visual classes (Smart Class).
- Digitised library to facilitate research-based learning.
- Soft Skill classes for students including, debate, group discussion, creative writing skills to enhance the overall personality and to instil the sense of confidence among them.
- Career counselling sessions for senior students to help them make informed and better career choices.
- Child psychologists offering counselling and assessment.
